Price: \$8,499.00

MSRP: \$10,072.00

Description

RDV V-Plow

Redefine what your half-ton truck can do. The SnowEx RDV V-plows have the features and benefits of the larger plows but are specifically designed for half-ton trucks. They are constructed of high-strength, low-alloy steel, making them stronger and lighter than conventional steel. Available in powder-coated steel or stainless steel, the plows configure to varying vehicle heights for optimum performance on some of the most popular truck models.

Trip-Edge _ Protection

Protect _ Yourself. Protect Your Equipment.

Independent trip edge protects the plow, truck and operator when encountering obstacles, and functions in any position (scoop, V, angle or straight). Because only the edge trips, snow load loss is minimized.

Flared _ Moldboard

Clear _ Snow Quicker

Tall flared moldboard allows you to throw snow higher and farther, delivering exceptional snow clearing results.

LED Lights extra

Note - Some vehicles may require additional parts not included in this price.
