Description

Pro Panel's original Stall Grazer 3-in-1 horse feeder is used and endorsed by more equine universities, veterinary clinics, and million dollar riders than any other horse feeder in the world! The corner feeder features an ultra-durable one piece molded design that has a large center cavity for hay and two smaller side cavities for grain and salt.

Stall Grazer 3-in-1 horse feeders are designed to sit at ground level and allow your horses to eat comfortably with their head down and teeth aligned in a natural grazing position the way nature intended.

Horses are healthier and happier and will keep the hay in the feeder and not out on the ground or stall floor.

The savings on feed, shavings and labor return your investment year after year.

All Pro Panel Stall Grazer Corner feeders come with a one year limited warranty and installation is fast and easy!
