<https://murphytrailer.com/unit/2026-other-150-bushel-creep-feeder-livestock-equipment-607587>

Price: \$5,200.00

Description

New 150 Bushel Creep Feeder
-3 Ton approximate capacity
-12ga construction on entire box (most competitors only use 12ga on the feed trough floor and use lighter steel for the feed box)
-adjustable flow rate
-3 position adjustable rain guards (These are a must have and are typically a costly option on most competitors feeders...not here, we know you need it so it is included!)

- EZ Open lid opens from ground level to keep you safe (no more standing on a ladder trying to man handle a lid open)
- spring loaded cages fold down easily for 1 person operation
- adjustable stabilizer bar keeps the cages securely on the ground no matter the variation of terrain
- swivel tongue jack
- large steps for safe and secure access of the feed box
- stir auger to break up feed bridges (again an option on most competitors feeders)
- 16" radial tires

Extremely easy operation as well as the heavy build and standard features of these feeders set them apart from the competition. Start adding value to your calves at a time that is unprecedented as far as being able to put money back in your pocket. These creep feeders have never had a better time to pay for themselves as quickly as what they can in today's cattle market. Invest in your product that you are taking to town to market and most of all it's an investment in your overall profit margin!
