Price: $4,350.00

Description

Jenkins 84 Super Duty Skid Steer Rock bucket with Grapple - Split Grapple Hoses & Tips Removable End Plates 3 Tine Spacing
"This unit has 1/2" tines throughout, with a 3/4 thick serrated cutting edge, 3/4" grapple sidewalls, 1/4" square tube supports on the grapples to minimize any possible twist, and larger 2.5" bore

cylinders(now completely encased with a different guard design). The frame has larger square tubes as well, both for added strength and to add clearance for the new cylinder guards. We've also added enclosed hose routing for protection.
I don't have a weight on this one yet, I would expect it to be in the 1600 lbs range,"
