Price: \$1,150.00

Description

Headgate - Model '91 **No other product invented by the Priefert family has had more of an impact on the cattle industry than the full front-opening headgate invented by Marvin Priefert in 1964.** A good headgate that will not only stand the test of time, but also increase your productivity and efficiency! Provides safety for both animal and operator, helping to take some of the "work" out of working cattle. Operates in manual or automatic mode. Infinite Locking System is guaranteed for life! Yokes/sides are contoured to fit securely around the animal's neck. Infinite Locking System allows for the perfect fit for every size animal with no adjustments necessary. User friendly, all levers and handles are located in one spot. Reversible headgate for left- or right-handed users.
