Description

Includes
99101290 â?? Spreader
99101248 â?? Controller Kit

99101113 â?? Short Chute Kit
99101260 â?? Vehicle Harness Full Size Truck 31in
Military Grade Primer & Powder-Coat Paint Finish
The easy on/off stainless steel and roto molded chute has a 16â?• four flute poly spinner to provide you long life and superior spread pattern up to 30in
The inside of the poly hopper walls are designed for maximum flow of the toughest materials to minimum size material bridging.
Patented, adjustable inverted vee. Adjust the inverted vee system to match the material you want to spread.
The Revolution V-Box family has a roto molded perimeter with ribbed hopper, mounted to an all stainless steel frame and drive support.
The 1/2 horsepower direct drive gear box and 1/3 horsepower spinner motor are fully enclosed so that water and salt does not penetrate.
One harness supplies all of the power from the battery to the hopper, with a water-tight Duetsch connector and seal to connect them. The harness is plug and play for accessories. No cutting or splicing.
Optional Wetting System with Filling Station available.
