Description

This 24' tilt deck trailer is engineered for serious equipment transport. With a 16' hydraulically locking tilt bed and 8' stationary deck, loading is smooth and ramp-free. The 15,400 lb GVWR, tandem 7K axles, and 10-ply E-range tires give it the muscle to move up to 11,800 lbs of payload. Finished in industrial-grade polymer over treated wood decking, it's built for durability and performance.
