Description

2027 Triton Trailers Wave (One Place) Watercraft Trailer - 920# GVWR

The WAVE Series is designed specifically for compact watercraft models such as the Sea-Doo, Spark, Kawasaki, SX, Yamaha, Superjet and EX.

- **Fully Welded Frame:** The Triton difference - all-aluminum, fully welded frame provides a solid structure for years of loading and unloading. A dual-bowed design cradles compact watercraft, providing a lower launch height.
- **60" Tongue:** Long 60" tongue for easy trailer maneuvering and launching.
- **Designed To Fit Compact Watercraft Models:** Adjustable 5' bunks fit compact watercraft, and the bow stop roller is movable up, down and along the tongue for a proper fit.
- **Adjustable Bunks:** 5' bunks adjust from left to right to properly accommodate the craft hull, and can also be angled to perfectly cradle the craft.
- **Galvanized Axle:** Galvanized spring axle for corrosion resistance.
- **Sealed LED Lights:** Sealed lights and wiring harnesses throughout trailer resist corrosion caused by moisture.
- **Keel Guard:** Non-marring keel guard and capped ends shield your craft at potential impact area. Both are UV-resistant.
- **Tie Downs:** Four welded aluminum tie downs provide multiple points to secure watercraft.

Trailer Specs:

- **Number of Watercraft: 1**
- **750# Carrying Capacity**
- **Trailer Weight 170#**
- **Overall Width - 56" ****
