Buyers Part Number: VXF95IIR
Buyers Products SnowDogg VXFII Snow Plow gives commercial users a powerful and versatile v-blade with intuitive one-handed controls.

- Dual corrosion resistant 304 stainless steel moldboards never need paint. A robust frame spreads impact across the blades to reduce wear on vital components. â?¢ Full-length 2 in. cross tube â?¢ Heavy duty bottom channel â?¢ Four 1/4 in. laser-cut steel ribs per wing â?¢ 1/2 in. cutting edges
- SnowDogg Illuminatorâ?¢ LED Headlights are brighter and longer lasting than traditional halogens. Active Defrosting Technologyâ?¢ keeps the Illuminators ice-free even in the biting cold - a central heat source defrosts the entire lens evenly, preventing the streaking or banding that's common with other LED plow lights. SnowDogg HX High Intensity Halogens are also available.
- Mount and dismount in one minute or less with the new RapidLinkâ?¢ Attachment System. â?¢ Center-mounted drop foot props up your plow on any surface with the pull of a handle â?¢ Hydraulically powered Jack Switchâ?¢ adjusts your plow's mounting height on the fly so it's easy to line up with your vehicle â?¢ Connects to your truck with a single driver side foot pedal
- The tubular steel Floating A-Frame features a sliding-pin connection so the plow contours the ground for a clean, efficient scrape. Outstanding performance at any mounting height.
- From the municipal style chain lift to the fully enclosed hydraulic power unit, the VXFII is built to endure whatever winter throws at you. â?¢ Powerful 2 in. lift cylinders â?¢ Over-sized 1-1/2 in. angle cylinders â?¢ Fully enclosed 2 HP hydraulic power unit â?¢ SAE standard cartridge valves and hefty 3/8 in. rubber hoses
- Double acting 1-3/4 in. angle cylinders make it easy to put snow where you want it. Back drag with confidence, even in tight spaces.
- Each wing has an independent 6 in. trip edge and two stress-optimized trip springs to protect your equipment from hidden curbs and obstacles without dumping the snow you're pushing.
- Intuitive in-cab controls are simple to use even with gloves on. The backlit, one-handed controller puts all plows functions, including angle, scoop, and V, in the palm of your hand. Other standard accessories: â?¢ Contoured poly snow deflector â?¢ Wire reinforced blade guides

Specifications continued:

Angle Cylinders	1 1/2 x 1 3/4 x 12"	**Angled Blade Width**	99.0"
Blade Height	29/37"	**Blade Width**	114"
