Description

Bradford Built Mustang Bed

The Mustang is a great choice for a ranch hand truck. The tube headache rack makes room for a range cube feeder and stake pockets built into the deck give options for your own custom built sides. No frills, just function makes the Mustang a very competitively priced bed.

Features may include:

Tube Style Headache Rack

The Tube Headache Rack takes up minimal space and allows ample room for a cake feeder.

Gooseneck and Receiver Hitches

We build every bed with a 30,000# rated Gooseneck Hitch. Also standard on every bed is a 2" receiver hitch built comparable to a Class IV hitch.

Optional Rub Rail

You have the option to upgrade to Rub rails with stake pockets and flat back on the Mustang bed. This option works great if your wanting to add tall stake sides along the sides and rear to haul loads of gravel or dirt.
