Description

Hawke 7' x 16' 17K Low Profile Dump Trailer with 4-foot sides

Built for serious hauling when both volume and weight capacity matter. The tall 4' sides allow you to move more material per load, making it ideal for contractors handling debris, brush, and bulk materials.

With a low profile design for easy loading and a heavy-duty scissor lift system, this trailer delivers powerful, controlled dumping while maintaining excellent stability on the jobsite. Built with premium components like Dexter axles, Westlake radial tires, and a durable Sherwin-Williams finish, it’s engineered for demanding, everyday use.
