### Description

- General

Total Fuel Capacity: 9.5 gallons
Drive Tires: 24? x 9.5?-12? (48? and 52?) / 24? x 12?-12? (61?)
Caster Tires: 13? x 6.5?-6?, flat-free
Seat: 4-point iso-mounted mid-back mounted on operator-suspension platform

- Drive System

Drive System Type: Dual Pump and Motor
Pumps: Hydro-Gear 12 cc
Motors: Parker 14.5 ci
Forward Ground Speed: 12 mph
Reverse Ground Speed: 5 mph
Parking Brake: Foot-operated pedal

- Deck

Cutting Widths: 48?, 52? and 61?
Type: Velocity Plus™
Cutting Height: 1? to 5? in .25? increments
Deck Lift: Adjustable foot-operated pedal
Construction: Tri-plate cutter deck constructed of 3 steel plates totaling nearly 1/2? of steel. Reinforcement plates at cutter deck spindles.
Spindles: Cast-iron housing with tapered roller bearings.
Blade Engagement: Ogura GT3.5 (250 ft lb). Adjustable air-gap for extended life.

- Velocity Plus Cutter Decks

The envy of the neighborhood
Scag® cutter decks have always given our competition a serious case of deck envy. Many try to duplicate the performance, but none can match it. The Velocity Plus™ cutter deck is an outstanding performer and delivers beautiful results.

The Velocity Plus™ Cutter Deck provides the unmatched power, precision and performance professionals demand. This revolutionary deck design delivers high-velocity discharge plus a beautiful manicured cut, even at faster ground speeds. A redesigned cutting chamber and massive discharge opening provide even greater cutting performance with maximum clipping dispersal in any conditions.

Strength — Scag’s tough cutter-blade spindles and Tri-Plate construction ensure solid performance and long life. A replaceable trim-side wear pad protects deck from damage.

Productivity — An extra-large discharge opening, paired with the Turbo Baffle, enhances discharge for even clipping dispersal.

Flexibility — The Velocity Plus cuts everything from fine grasses to tough weeds. The Custom-Cut™ Front Baffle System allows you to customize the deck to your individual conditions for even more productivity and higher performance.

- Kohler Command PRO EFI Engines

Cut more grass. Use less gas.
Experience tremendous power, productivity and fuel savings with this winning combination of engine and machine. With its closed-loop injection system and heavy-duty air-filtration system, the EFI engine delivers superior performance, custom-made for the most demanding conditions.

This engine offers optimal fuel efficiency, consistent running temperatures and quiet operation. Easy-to-access service points, a solenoid shift starter and a 3-year limited warranty* put the finishing touches on this impressive package.

Other features include:

Closed-loop electronic fuel injection for maximum fuel efficiency.
Aluminum block with cast-iron cylinder liners.
Industrial-grade air-filtration system ensures maximum protection of interior engine components.
Dual air filters deliver maximum performance. The main filter traps dirt and debris while the inner filter prevents carburetor contamination during main filter servicing.
Overhead valve design produces more power, improves fuel economy and cooling, and reduces oil consumption.
Full-pressure oil-lubrication system with spin-on oil filter.
Various user-friendly features: dual oil drains, easy-access oil fill, in-line fuel filter.
Commercial-grade solenoid shift starter means quick, reliable starts.

- Note: Engine specifications based upon manufacturer-supplied information. All specifications subject to change at any time without notice or obligation. Engine specifications may vary by model.
