Price: \$21,500.00

Description

OVERVIEW

Tilts offer the ease of never having to use ramps. Available with gravity or power tilt and with deckover, or drop deck configurations \

The directional drill trailer is a beast of a trailer, with no peers in its class. This patented design utilizes a tilting deck on the driver side and fixed deck on the passenger side. Operators can load their directional drill on driver side, while bolting down their tanks, mixers, reels, etc. on the fixed passenger side. With no ramps to hassle with, this trailer is no doubt the safest way to load your directional drill. \

SPECS
