Description

HD Low Profile Beavertail Deckover

Whether hauling heavy machinery or material, this Low Profile Heavy Duty Deckover is perfect for any task. Heavy I-Beam frame and Cross-Trac(tm) bracing provide superior structural support and help to stabilize the trailer by transferring extreme loads evenly to the frame. A pierced frame allows for easy deck access, and provides a save and optimal loading angle for machinery. Stake pockets, chain spools, and D-rings provide optimal tie down points, and the powder coat finish provides additional protection against road elements. Heavy duy I-Beam Gooseneck and universal full-width ramps are a few options to help customize the trailer to your specifications.
