Description

102x24 17K Deckover

102x24 17K Deckover Long and strong—102x24 deckover trailer with 17K GVWR, ready for heavy equipment or bulk transport.

Deckover Bumper Pull TrailersA versatile deckover trailer featuring a flat deck design that maximizes cargo space and ease of loading for a variety of equipment and materials. Built with a durable steel frame and heavy-duty decking, this trailer is ideal for contractors, landscapers, and equipment haulers transporting skid steers, compact tractors, construction materials, and bulky loads. The low deck height improves stability and makes loading heavy equipment safer and easier. Perfect for commercial and residential hauling tasks requiring a reliable, rugged trailer.

Standard StyleOur Standard trailers use square tubing frames, which provide added strength, durability, and a cleaner look. Tubing construction is ideal for heavier loads, frequent use, or customers who want a longer-lasting investment.
