Built with a steel frame and aluminum skin construction, this Rock Solid Cargo trailer combines structural strength with a durable enclosed body. The V-front nose adds useful front cargo space and gives the trailer a streamlined profile, while the flat roof and 7-foot interior height provide excellent clearance for taller equipment and cargo.

Depending on your needs, it can be upgraded with blackout trim, E-Track, cabinets, upgraded lighting, electrical packages, additional tie-downs, escape doors, spoilers, and other custom features for use as a contractor trailer, motorcycle trailer, equipment hauler, or motorsports trailer.
