Description

2027 Aluma 6310S-TG Aluminum Utility Trailer – 5'3" x 10' – Single Axle

Lightweight aluminum utility trailer with aluminum wheels, rear loading ramp, rubber torsion axle, and extruded aluminum flooring!

Looking for a 2027 Aluma 6310S-TG aluminum utility trailer for sale near Wooster, Ohio? This versatile single-axle trailer is designed for hauling lawn equipment, ATVs, dirt bikes, landscaping supplies, and everyday property maintenance equipment.

Featuring a 63-inch-wide by 120-inch-long aluminum deck, the Aluma 6310S-TG offers practical hauling space while maintaining a compact, easy-to-maneuver design.

Its aluminum construction, aluminum wheels, durable extruded aluminum floor, and convenient rear loading tailgate make it an excellent option for homeowners, landscapers, farmers, and recreational users looking for a dependable, low-maintenance utility trailer.

Trailer Specifications & Standard Equipment

- Rear Loading Gate: 59.25" Wide x 39" Long Aluminum Tailgate
- Overall Width: 84.5" (7'0.5")
- Overall Length: 168" (14')

Lightweight, Corrosion-Resistant Aluminum Construction

The Aluma 6310S-TG combines an aluminum frame, extruded aluminum floor, aluminum wheels, and aluminum fenders for a durable, attractive, low-maintenance trailer.

Compared with many traditional painted steel utility trailers, aluminum construction helps reduce rust-related maintenance while providing a practical hauling solution.

Benefits include:

- Lightweight aluminum construction
- Corrosion-resistant frame and flooring
- Durable extruded aluminum deck
- Attractive aluminum wheels
- Compact single-axle design
- Easy maneuverability and storage
- Convenient Aluminum Rear Loading Ramp

The 59.25-inch-wide by 39-inch-long aluminum tailgate provides convenient loading access for compatible wheeled equipment.

The rear ramp makes this trailer useful for transporting lawn mowers, ATVs, small motorcycles, and other recreational or property maintenance equipment.

The 6-inch front retaining bumper, four stake pockets, and four tie-down loops provide additional cargo containment and securement options.

Always verify equipment dimensions, loaded weight, ramp capacity, and ground clearance before loading.

Rubber Torsion Axle & Towing Features

This Aluma utility trailer features a 2,000 lb rubber torsion axle with easy-lube hubs and ST175/80R13 radial tires.

Rubber torsion suspension provides independent wheel movement and helps reduce road vibration while towing.

Additional towing features include:

- Aluminum wheels with a 5 on 4.5-inch bolt pattern
- 48-inch A-frame aluminum tongue
- 2-inch ball coupler
- 1,200 lb swivel tongue jack
- Tongue handle for manual positioning
- LED trailer lighting
- Safety chains

What Can You Haul With an Aluma 6310S-TG?

- The 5'3" x 10' aluminum deck is a practical size for transporting compatible:
- Riding lawn mowers and lawn care equipment
- ATVs and four-wheelers
- Dirt bikes and small motorcycles
- Landscaping tools and supplies
- Farm and property maintenance equipment

- Garden equipment
- Lumber and building materials
- Household items and general utility cargo

The 10-foot deck provides additional hauling room compared with shorter 8-foot trailers without the bulk of a larger tandem-axle utility trailer.

Why Choose the 2027 Aluma 6310S-TG?

- Aluminum Construction: Corrosion-resistant materials help reduce maintenance compared with traditional painted steel trailers.
- 10-Foot Deck: Practical hauling space for lawn equipment, recreational vehicles, and general cargo.
- Aluminum Wheels: Attractive appearance with durable aluminum construction.
- Rear Loading Ramp: Convenient access for compatible wheeled equipment.
- Rubber Torsion Axle: Smooth towing characteristics with independent wheel movement.
- Multiple Tie-Down Points: Four tie-down loops and four stake pockets for cargo securement.
- Quality Standard Equipment: Radial tires, LED lighting, swivel tongue jack, and easy-lube hubs.
