Description

Westbrook 5x10 Utility Trailer with Landscape Gate

The Westbrook 5x10 Utility Trailer, proudly manufactured by Stirling Trailers, is a versatile, premium-quality trailer designed for homeowners, landscapers, and contractors who need dependable performance day after day. Whether you're hauling lawn equipment, ATVs, motorcycles, mulch, firewood, building materials, or general cargo, this trailer is built to handle the job with confidence.

One of its standout features is the oversized 48-inch rear landscape gate, providing a low loading angle for riding lawn mowers, ATVs, and other wheeled equipment. The gate can also fold flat inside the trailer bed, making it easier to haul longer items like lumber, pipe, and other oversized materials.

For outstanding durability and long-term value, this trailer is equipped with a corrosion-resistant Premium Galvalume™ Plus finish, sealed LED lighting, protected wiring, radial tires, EZ Lube® hubs, and a spring axle suspension. The spring suspension delivers a smoother ride, better protection for your cargo.

An extendable front bed adds even more versatility by allowing the trailer deck to be extended up to 15 inches, making it easier to transport longer loads when needed.

With an impressive 2,100-pound payload capacity, the Westbrook 5x10 Utility Trailer is an excellent choice for both residential and commercial use.
