Description

4' X 8' G Series

Our steel mesh floor trailer is built to take on whatever the day brings. With a durable mesh floor and fully welded steel frame, it’s designed to handle all kinds of hauling with ease. Whether you’re moving gear or materials, this trailer gives you the flexibility you need to tackle a wide variety of jobs.
Available Sizes
4' x 6'
4' x 8'
5' x 8'
5' x 10'
Equipped With
Steel Mesh Floor
Lighter than solid wood floors, increasing payload capacity, the steel mesh provides great traction for items being transported, and loose debris can be swept through the mesh pattern for easy cleanup.
E-Z Lube Axle
Simplifies maintenance by allowing easy lubrication of both inner and outer bearings without disassembly, saving time and effort while also resulting in smoother operation.
Versatile Gate Design
The gate folds down to serve as a ramp for easy loading/unloading, or it folds into the trailer bed when needed to accommodate various cargo and reduce wind resistance during transport.
Straight Tongue
The straight tongue design offers enhanced maneuverability for easy navigation in tight spaces while maximizing space efficiency for convenient storage when not in use.
