Price: \$14,988.00

MSRP: \$17,850.00
Sales Price: \$14,988.00

Description

Key Features & Characteristics:

All-Aluminum Construction: The trailer is made from aircraft-quality aluminum, which offers high tensile strength, a lightweight design, and good heat conduction.

Wood Floor: The use of a wood floor is a characteristic feature, known for being easy to clean and durable.

Lightweight Design: The Stable Lite is one of the industry's lightest trailer models, making it easier to tow with a variety of vehicles, including half-ton trucks.

Value-Oriented: It is positioned as an entry-level option, providing a good value for horse owners seeking an aluminum trailer at a lower price point than higher-end models.

Standard Features: Typical features include saddle racks, tack hooks, dome lights, a swing gate, rubber mats, and a 7-year structural warranty.

Dressing Room: Many models come with a dressing room that features a folding swing-out wall, allowing for more versatility in hauling other items.

Standard Components: Trailers typically use spring axles and wood floors rather than the torsion axles and aluminum floors found in more premium models.

What to Expect:

Lower-Mid-Level Trailer: The Stable Lite is considered a lower-mid-level trailer, offering solid quality for the price.

Versatility: The folding dressing room wall adds a layer of versatility, allowing the trailer to be used for various hauling purposes beyond just horses.

Portability: Its light weight makes it an excellent choice for those who need to frequently hitch and unhitch the trailer or are concerned about the weight limit of their tow vehicle.
