Call for Price

Description

A 20 ft ATC mobile office and command center with heat, air conditioning and a kitchenette — a self-contained jobsite office that tows behind a three-quarter-ton. The 20-foot build is the practical entry point into ATC's command center line. It gives you a real climate-controlled office with power and running water in a footprint that still parks and maneuvers on a tight site.

Set up to work in. Two flip-up workstations and 48-inch upper cabinets give you desk space and storage, and the furniture track mount system lets you rearrange as the job changes. Microwave and refrigerator on board. Gray rubber coin flooring handles muddy boots, and 14-inch LED lighting keeps the interior bright.

Power and climate. A 50-amp panel with 60-amp converter, generator prep with transfer switch, and a motorbase plug with 15 ft shore cord let you run on shore power or a generator. A 15,000 BTU AC/heat unit plus 1,500-watt heaters keep it working through an Ohio winter. Walls and ceiling are insulated, with a roof vent and MaxxAir cover.

Water on board. A 48-gallon water tank supports a kitchenette and wash-up without hooking to a site supply.

Hauls gear too. A rear ramp door and 48 in x 40 in x 18 in storage space mean you can bring equipment along instead of towing a second trailer. A power awning gives you covered space outside the door.

Built to tow and sit level. Full perimeter aluminum frame, .030 aluminum exterior, 4-inch aluminum trim, one-piece roof, 16-inch on-center crossmembers, torsion suspension, electric brakes on both axles, a 2-5/16 in coupler and a 7-way truck plug. Four 5K scissor jacks level it on uneven ground. LED clearance lights and a 32-inch entry door with window.

Common uses. Construction field office, emergency response and command, utility crews, mobile screening or clinic space, race and event headquarters.

Build-to-order. ATC configures these to spec — layout, electrical and interior can be built to your requirements. Working from a grant or a public procurement budget? We provide itemized quote packages suitable for grant applications and bid submissions.

See it at Rock's Trailer Sales, 3908 Jackson Pike, Grove City, OH — just off I-71 exit 100. Call (614) 875-8989 to spec a build or request a quote package.
