Description

A 28 ft ATC command center with a full bathroom, kitchenette and aluminum cabinet package — a turnkey mobile office you can tow to any jobsite.
Four extra feet over the 24 ft build is the difference between a crowded trailer and a room people can actually meet in. This is ATC's largest office configuration, set up for crews who run operations out of the trailer for weeks at a time rather than stopping in between tasks.

A working office, not a converted cargo box. Two 36 in x 20 in workstations, 48-inch upper cabinets, and a full aluminum cabinet package give you real surfaces and real storage. The furniture track system lets you move stations around as the job changes. Four 42 in x 32 in windows and 14-inch LED lighting mean you are not working in a cave.

Bathroom and kitchenette on board. A full bathroom plus microwave, refrigerator and kitchenette keep the crew on site through the day instead of driving off for facilities.

Power for real equipment. A 50-amp breaker with 60-amp converter feeds four 15-amp and two 20-amp interior 120V outlets — enough for monitors, radios, chargers and tools at once. Generator prep with a transfer switch means you can run off shore power or your own generator. A 15,000 BTU AC unit and heater, over insulated walls and ceiling, keep it usable in an Ohio February and an Ohio July.

Built to tow and sit level. Full aluminum frame with .030 aluminum exterior, 16-inch on-center crossmembers, torsion suspension, electric brakes on both axles, and an extended triple tube tongue. Four 5K scissor jacks level it on rough ground. One-piece roof, 4-inch aluminum trim, LED clearance lights, and a 32-inch entry door with window. A power awning with exterior lighting gives you covered space outside the door.

Common uses. Construction field office, emergency operations and mobile command, utility and disaster response, mobile clinic or screening unit, race and event headquarters.

Build-to-order. ATC configures these to spec — layout, electrical and interior can be built to your requirements. Working from a grant or a public procurement budget? We provide itemized quote packages suitable for grant applications and bid submissions.

See it at Rock's Trailer Sales, 3908 Jackson Pike, Grove City, OH — just off I-71 exit 100. Call (614) 875-8989 to spec a build or request a quote package.
