Description

This 2023 ATC 8.5 x 28 FT Car Hauler ROM500 delivers serious capacity in an aggressive, blacked-out package, featuring a full black out trim kit and charcoal finish for a stealthy, purposeful look. The .040 aluminum screwless skin and screwless aluminum walls and ceiling give this ROM500 a clean, durable exterior, while the full perimeter skirt with reverse beavertail and aluminum rock guard protect the trailer from the road.

Inside, 7 ft of interior height and interior cabinets provide comfortable working room and organized storage, and rubber coin flooring stands up to daily use. The 405 Series door with slam latch and premium escape door, along with the aluminum slide-in/out step, make loading and everyday access easy. A generator door adds on-site power flexibility, and a stainless steel rear spoiler with (3) LED lights finishes the look while improving visibility.

Built on dual 6K axles with aluminum wheels and electric brakes, this ROM500 rides smooth and stops with confidence. A 50 amp Intellipower breaker box with 60 amp converter and 12V AGM battery keep the electrical system running strong. With a GVWR of 13,200 lbs and a payload capacity of 8,754 lbs, this ROM500 is built to work. Originally \$43,999, it's available now at \$38,999. Contact Rock's Trailer Sales in Grove City today and reference Stock #183898 to schedule your inspection or reserve this ATC ROM500 before it's gone.
