Description

This 2024 Lamar Trailers 102" x 26 FT gooseneck deck over tilt trailer is built for hauling larger equipment with confidence. A steel 10" I-beam frame and 8K oil bath axles with 16-ply tires provide the strength and durability to handle heavy, repeated loads, while the 12V hydraulic pump makes tilting the deck quick and effortless. Electric brakes on both axles and 10K drop leg jacks give you control at hookup and on the road, and stake pockets with rub rail add flexible tie-down options. A locking tongue toolbox keeps your gear secure, and 17.5" steel wheels plus a spare carrier round out a trailer that's ready for daily jobsite use. With a 16,000 lb GVWR and 9,950 lbs of payload capacity, this gooseneck deck over is priced at $16,999.
