Description

Need a compact, heavy-duty hauler that lowers itself for easy loading? This 2024 Air Tow 12 FT drop deck equipment trailer features hydraulic lowering with a deep cycle battery and 110V 6-amp charger, so you can drop the deck to ground level and load without ramps in many cases. Built on a steel frame with a 75" wide deck and 12-ply tires, it rides on a tandem axle setup with electric brakes for confident, controlled towing. A divided lockable tool box keeps chains, straps, and gear secure, while the spare tire with carrier, LED lighting, and safety breakaway system round out a trailer that's ready to go to work. With a 13,780 lb GVWR and 10,100 lbs of payload capacity, this Air Tow is priced at $19,999 MSRP with a sale price of $17,999.
