Sales Price: \$2,099.00

Description

This 2026 Carry-On 5 ft 6 in x 10 ft utility trailer is built to handle the everyday hauling jobs that come up around the house, farm, or job site. The extra 6 inches of deck width over a standard 5-footer means more usable space for equipment or materials without the trailer feeling much bigger on the road. A tube top rail frames the deck and doubles as a tie-down point, and stake pockets allow you to build up the sides when hauling loose or bulky loads. The mesh ramp gate keeps weight down while still giving wheeled equipment a smooth path on and off the trailer, and the wood floor provides solid, dependable footing. LED lighting and a 4-pin plug make for quick, reliable hookup, and the A-frame tongue with 2 in coupler fits standard ball mounts. With a 2,990 lb GVWR and 2,040 lb payload capacity, this trailer carries a genuinely useful load while staying light enough — just 950 lbs — to tow with smaller vehicles. This black Carry-On is priced at \$2,299.

Key Specs:
