MSRP: $1,899.00
Sales Price: $1,899.00

Description

This 2013 Shorelandr PS8X10 is a compact, purpose-built trailer well suited for hauling an ATV, UTV, or other small powersport equipment. As a used trailer, it shows the wear you'd expect from years of service, but it remains a functional, ready-to-use option for buyers who don't need a brand-new trailer to get the job done. It's equipped with a ball coupler for easy hookup, radial tires for a smoother ride than trailers on older bias-ply rubber, and LED lighting for visible, dependable towing after dark. With a 2,000 lb GVWR and roughly 1,500 lb payload capacity on a trailer weighing about 500 lbs empty, it's sized right for a single ATV or UTV plus gear. This is a straightforward, no-nonsense used trailer priced at $1,899 for buyers who want dedicated ATV-hauling capability at an affordable price.
Key Specs:

- GVWR: 2,000 lbs
- Payload Capacity: 1,500 lbs
- Curb Weight: 500 lbs
- Condition: Used
- Price: $1,899
