Description

If you're shopping for a utility trailer that's a step up in width from the standard 5-footer, this 2026 Carry-On 5 ft 6 in x 10 ft model is worth a look. The wider 66 in deck gives you more flexibility for side-by-side loads, and the tube top rail and stake pockets add tie-down and containment options for a variety of cargo. A mesh ramp gate keeps the trailer lighter overall while still providing an easy loading path for mowers, ATVs, and other wheeled equipment. The wood floor is durable and provides good traction, and the A-frame tongue with 2 in coupler and 4-pin plug make hookup fast and compatible with common tow vehicles. LED lighting keeps you visible and street-legal after dark. At a 2,990 lb GVWR and 2,040 lb payload capacity, this trailer has real carrying capacity for its size, and at 950 lbs curb weight, it remains easy to tow. This black 5'6" x 10' Carry-On is priced at \$2,299 and ready to go to work.
