Description

This 2025 Air Tow 6 ft 3 in x 12 ft lowering trailer is built for hauling low-clearance equipment that needs a gentler loading angle. The hydraulic lowering system, powered by a deep cycle battery with a 6-amp charger, drops the deck down for easier loading without long ramps. A steel frame, 12-ply tires, and 8-lug wheels give this trailer the durability to handle repeated heavy use, and electric brakes provide reliable stopping power for towing. With a 7-pin plug for simple hookup, an 8,430 lb GVWR, and 5,435 lbs of payload capacity, this compact lowering trailer is priced at \$17,999 MSRP with a sale price of \$15,999.
