Sales Price: \$2,099.00

Description

This 2026 Carry-On 5 ft 6 in x 10 ft utility trailer offers a slightly wider deck than a standard 5-footer, giving you extra side-to-side room for wheeled equipment, coolers, or stacked boxes. Tube top rail construction wraps the perimeter for secure tie-down points, and stake pockets let you add removable stakes or panel sides when you need to contain loose material. The mesh ramp gate combines the convenience of a walk-on ramp with reduced weight, making it easier to load and unload equipment without straining to lift a solid gate. A wood floor gives cargo a stable, grippy surface, while the A-frame tongue and 2 in coupler keep hookup simple with almost any tow vehicle. LED lighting and a 4-pin plug wire up quickly for safe, visible towing. Rated at a 2,990 lb GVWR with a 2,040 lb payload capacity and weighing just 950 lbs empty, this trailer is easy to tow behind a mid-size truck or SUV. Finished in black, this 5'6" x 10' Carry-On is priced at \$2,299 and ready to work.

Key Specs:
