Description

OVERVIEW

The Pro Series Gooseneck/Fifth Wheel is built for heavy-duty hauling. The Pro Series Gooseneck is our most affordable gooseneck trailer, but still loaded with premium standard features for all your hauling needs. Versatile enough to haul automobiles, UTVs and even landscaping and contracting equipment, Pro Series Gooseneck trailers can maneuver with a tighter turning radius and handle larger payloads with more stability. With lengths from 28' to 53' long, these gooseneck trailers can haul it all. \
\
There is nothing entry-level about the standard features on the Pro Series Gooseneck. Solid construction features you expect from Cargo Express include tube frame construction, a one-piece aluminum roof, .030 aluminum with bonded exterior, LED lighting, automotive undercoating and a 5-year limited warranty. This trailer is as stylish as it is solid, with features including a polished aluminum V-nose or front corners, ATP fender flares, white vinyl ceiling and a 36" entry door with flush lock and recessed step. \
