Description

Stock# SC054934

Model# XPRESS8.5X24-IF CH

All-Aluminum Construction

Lightweight aluminum means more of the fun stuff, with less of what weighs you down - like fuel consumption and vehicle wear-and-tear!

Xpress Cast Corner

Flat Front w/Cast Corners

A flat front with cast corners makes your trailer a premium, extra-durable ride for your vehicle, coupled with a sleek, aerodynamic look.

Xpress Leaf Spring Axle Brakes

Braked Leaf Spring Axle

Let a braked leaf spring axle reduce the brake load on your tow vehicle and ensure an evenly distributed, safer, better-controlled ride.

Xpress 24 Inch Stoneguard

24" Stone Guard

Don't let rocky terrain slow you down. A stone guard deflects rocks, salt and debris to keep your trailer in top shape for endless miles.

Xpress Plywood Water Resistant Decking

Water Resistant Deck

Whether you're chasing fresh powder or blazing muddy trails, water-resistant decking defends your trailer floor against water and weather.

Xpress LED Dome Lights With Switch

Dome Light w/ Switch

A dome light in your cargo trailer means you're never stuck fumbling in the dark, whether you're working or playing outside after dark.

Xpress Recessed D-Rings

Recessed D-Rings

Each D-ring has a maximum load of 5,000 lbs. so you can rest assured your cargo is safely secured inside your Xpress enclosed car hauler.

Xpress Beavertail With Rear Corner Jacks

Beavertail Construction

Beavertail construction makes loading low-clearance vehicles easier and reduces the risk of dragging and damage to the undercarriage.

Xpress Smooth .03 Bonded Side Panels

Screwless .03 Bonded Slides

With a smooth, seamless appearance and no screw holes piercing the panels, screwless sides prevent water intrusion with a premium look.

Xpress Half Moon Vent

Plastic Salem Vents

Air out your trailer's interior with two Salem vents; one each placed at the front and rear of the trailer for maximum air circulation.
