Sales Price: \$2,395.00

Description

Elevate Your PWC Experience with Our All-New WaterMade Traveler Series Trailer!

As personal watercraft become increasingly sophisticated, it's time for trailers to step up their game. You deserve the best, and we've created it right here at the Lake of the Ozarks.

Introducing the ALL NEW WaterMade Traveler Series Heavy-Duty PWC Trailer.

So, what sets our trailer apart? For those who tow frequently or over long distances, traditional PWC trailers can leave much to be desired. And for those who store their trailers outside, the rust resistance of aluminum is a game-changer.

Let's dive into the remarkable benefits of our Traveler Series:

Unmatched Speed: While most trailers come with bias-ply 12" tires rated at 45-65mph, ours boasts an astonishing 106mph capability. No more tire hunting on holiday weekends – we use 14" radials, the most commonly available size.

Smooth Ride: Many competitors offer either 900 lbs or 1500 lbs spring axles, which can lead to a jarring and uncomfortable ride when the trailer is empty. Our trailer features galvanized 2000 lbs smooth-riding torsion axles, eliminating those vibrations and ensuring a comfortable journey.

Built to Last: Our frame and cross members are built to withstand the test of time. We use full 1/4" 3x3" cross members, a 3x3 double hollow tongue, and all stainless hardware. Sealed LED lighting with custom tread plate housings, double 15" step fenders, safety chains, swingle jack, double U-bolt bunk supports, tread plate fenders, a custom winch post, full frame protection, and a 3-year warranty are just some of the many features that make our trailer stand out.

And don't forget to ask us about our Kayak conversion options!

Thank you for considering Gladstone Cove Boat Trailer Sales. Upgrade your PWC trailer today and enjoy a superior boating experience!

Best Regards, Gladstone Cove Boat Trailer Sales
