Description

WM30-32 15KS
***Not intended for saltwater use
*Shown set-up for inboard engines with frame mounted bunks**
Thank you for checking out our budget friendly line of spring axle aluminium boat trailers. By combining the powerful rigidity of 5000 lbs springs axles, alongside the strength and our durably stable T6061 T6 all aluminum frame with stainless hardware, this combination offers an incredible value. Our hand-crafted WM30-32 15KS combines commercial-grade components and thoughtful design to deliver a safe, reliable towing experience.
About WaterMade Boat Trailers: WaterMade was created to solve recurring problems we encountered as a multi-brand dealer: how to offer a higher-quality trailer at a fair price while addressing common failure points found in competitive models. After thousands of units sold, we identified consistent weaknesses and redesigned them into our own line of custom boat trailers. While no product is perfect, we work hard to ensure durability, safety, and customer satisfaction.
Tow setup recommendation
Recommended hitch height: 26–29 in.
Ball size: 2 5/16 in. (required)
Additional options Additional options are available; see the attachment window for details.
