Description

WM40-24K Gooseneck

*Order only, 4 week lead time

Thank you for your interest in WaterMade boat trailers. Our hand-crafted WM40-24K Gooseneck combines commercial-grade components and thoughtful design to deliver a safe, reliable towing experience.

About WaterMade Boat Trailers: WaterMade was created to solve recurring problems we encountered as a multi-brand dealer: how to offer a higher-quality trailer at a fair price while addressing common failure points found in competitive models. After thousands of units sold, we identified consistent weaknesses and redesigned them into our own line of custom boat trailers. While no product is perfect, we work hard to ensure durability, safety, and customer satisfaction.

Tow setup recommendation

Gooseneck

***WaterMade Boat Trailers and its affiliate companies, dealers, and resellers are not responsible for owners' tow vehicle brake controller compatibility.

Explained: electric drum brakes do not require 12V to operate. Electric over hydraulic is precision braking and require 12V to turn on yet alone function. Some newer trucks have factory brake controllers that simply do not push out 12V to the factory female plug despite what a salesperson/dealer may tell you without true knowledge of the facts. It is an EASY fix, aftermarket plugs are available online that simply plug-in and correct this issue.
