Sales Price: \$3,595.00

Description

Elevate Your PWC Experience with Our All-New WaterMade Double Traveler Series Trailer! As personal watercraft become increasingly sophisticated, it's time for trailers to step up their game. You deserve the best, and we've created it right here at the Lake of the Ozarks. Introducing the ALL NEW WaterMade Traveler Series PWC Trailer. This is built for those who plan on heavy towing and is standard with a matching spare.

So, what sets our trailer apart? For those who store their trailers outside, the rust resistance of aluminum is a gamechanger. We have taken this with economical combination of spring axles, and created a rust free yet long-lasting model for you to hang on to long term and it is not rusted in 2 by the time you use it again

Let's dive into the remarkable benefits of our Traveler Series:

Unmatched Speed: While most trailers come with bias-ply 12" tires rated at 45-65mph, ours is standard with 205/75R14 D radial tires and Fuel 14" aluminum wheel and tire combo, for peddle to the metal on the speed rating. No more tire hunting on holiday weekends – we use 14" radials, one of the most commonly available size.

Smooth Ride: Many competitors offer either 900 lbs or 1500 lbs spring axles, our trailer features a 3500 lbs torsion axle.

Built to Last: Our frame and cross members are built to withstand the test of time. We use full 1/4" 3x3" cross members, a 3x3 double hollow tongue, and all stainless hardware. Sealed LED lighting, safety chains, swingle jack, double U-bolt bunk supports, tread plate fenders, adjustable slanted winch post, full frame protection, and a 2-year warranty are just some of the many features that make our trailer stand out.

And don't forget to ask us about our Kayak conversion options!

Thank you for considering Gladstone Cove Boat Trailer Sales. Upgrade your PWC trailer today and enjoy a superior boating experience!
